

Hayes Modular has installed modular construction for military, commercial and residential structures in the U.S. Established in 1986, we're responsible for millions of square feet of modular projects.

We're proud to be a division of Zekelman Industries, the largest independent steel pipe and tube manufacturer in North America and a leader in modular construction innovations. Like Z Modular, we are a one-stop shop for modular buildings and services, leveraging our relationship with other Zekelman subsidiaries to supply all the steel pipe and tube products for our jobs. Our experts work side by side with customers during all planning, engineering and construction phases.

Hayes Modular advocates for domestic manufacturing and fair trade. **We support:**

A campaign calling on business leaders across all sectors to buy local and partner with domestic organizations.

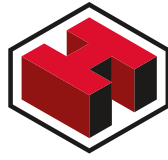

A national grass-roots initiative supporting the domestic steel industry and all the hard workers whose livelihoods depend on it.

**8M+**  
SQ. FT. BUILT

**9,701**  
MODULES INSTALLED

**15%**  
LESS ENERGY USAGE  
THAN TRADITIONAL  
CONSTRUCTION
