

Western Tube is a leading supplier of steel and aluminum conduit and EMT. Founded in 1964, we've grown to become the largest manufacturer of steel conduit on the West Coast. Our headquarters, factory and main warehouse in Long Beach now occupy 420,000 square feet across 21 acres. We have a network of warehouses and distribution facilities across the U.S. to provide next-day deliveries to our customers.

As a division of Zekelman Industries, the largest independent steel pipe and tube manufacturer in North America and a leader in modular construction innovations, customers also have access to leading technologies that improve inventory and logistics management, reduce supply-chain costs, and reveal ordering insights.

Western Tube advocates for domestic manufacturing and fair trade. **We support:**

A campaign calling on business leaders across all sectors to buy local and partner with domestic organizations.

A national grass-roots initiative supporting the domestic steel industry and all the hard workers whose livelihoods depend on it.
